

ROV Pilot Technician

Primarily an offshore position supporting worldwide projects with occasional requirements to work in our Ellon base. Key duties and responsibilities to include, but are not limited to:

- Conduct ROV systems offshore maintenance in compliance with Film-Ocean offshore schedules
- Updating of the preventative maintenance service (PMS) manual
- Stocktaking and inventory control of the system spares and consumables
- Completion of system and project paperwork (e.g. inventory, weekly ROV/safety reports, dive logs, video logs etc) under the direction of the Supervisor or Sub Engineer.

QHSE Responsibilities

- Perform ROV operations as instructed and in accordance with approved procedures and Film-Ocean QHSE Policy and Objectives.
- Demonstrate personal commitment to Health, Safety, Environment and Quality
- Apply Film-Ocean and any Client's Health, Safety, Environment and Quality Policies
- Promote a culture of continuous improvement, lead by example and exceeded Film-Ocean's commitment to HSEQ initiatives.

Essential Requirements

- Must hold relevant certification for the position either MTCS or IMCA or equivalent
- Minimum 5 years' experience within the role
- Preferred experience on either Seaeye, Sub-Atlantic or SMD ROV systems
- Candidates must be willing to travel on occasion to all regional work sites within Europe, West Africa and Middle East etc.

Additional Information

Applicants must be eligible to work in the UK.

Film-Ocean assess all applications based on merit. Should a suitable candidate be identified, Film-Ocean reserves the right to close the recruitment process prior to the advertised closing date.

Only those candidates considered to be suitable will be invited to interview.

Closing Date

Friday 22nd November
