

## **ROV Sub Engineer**

Primarily an offshore position supporting worldwide projects with occasional requirements to work in our Ellon base. Key duties and responsibilities to include, but not limited to:

- Deputise for the ROV Supervisor as and when directed by Film-Ocean constraints, e.g Shift Supervisor in the event of 24-hour operations
- Conduct planned maintenance in accordance with company guidelines
- Stocktaking and inventory control of system spares and consumables
- Completion of system and project paperwork (e.g inventory, weekly ROV/safety reports, dive logs, video logs etc) under the direction of the Supervisor.

## **QHSE Responsibilities**

- Ensure that all ROV operations under their control are completed in a safe and efficient manner in accordance with Film-Ocean's QHSE Policies and Procedures
- Attendance (when nominated) at chairing tool box talks and weekly safety meetings
- Demonstrate personal commitment to Health, Safety, Environment and Quality
- Apply Film-Ocean and any Client's Health, Safety, Environment and Quality Policies
- Promote a culture of continuous improvement, lead by example and exceeded Film-Ocean's commitment to HSEQ initiatives.

## **Essential Requirements**

- Must hold relevant certification for the position either MTCS or IMCA
- Minimum 3 years' experience within a Sub Engineer role
- Preferred experience on either Seaeye, Sub-Atlantic or SMD ROV systems
- Candidates must be willing to travel on occasion to all regional work sites within Europe, West Africa and the Middle East.

## **Additional Information**

Applicants must be eligible to work in the UK.

Film-Ocean assess all applications based on merit. Should a suitable candidate be identified, Film-Ocean reserves the right to close the recruitment process prior to the advertised closing date.

Only those candidates considered to be suitable will be invited to interview.

## **Closing Date**

Friday 22nd November
