

# PROJECT ENGINEER

## Location – Ellon, Aberdeenshire

---

### Company Overview

Film-Ocean, a Stapem Group Company is a Global ROV contractor providing subsea inspection and technical support to the Oil and Gas and renewable energy industries. Our unique offering enables clients to improve the reliability and operational efficiency of their subsea operations, reducing risk and cost while improving safety and performance.

As Project Engineer you will support an ongoing Subsea research and development project, which is progressing from conceptual stage through to fabrication, trials and offshore deployment. The role will focus on the interface between our client and management of the sub contracted tooling fabricator as well as development of trials and operational procedures.

It is anticipated the Subsea research and development project will last for a period of approximately 2 to 3 months with a start date sometime in January.

A competitive day rate will be offered, and we would consider applications from candidates employed on a PAYE fixed term contract or on a consultancy basis

### QHSE Responsibilities

- Demonstrate personal commitment to Health, Safety, Environment and Quality
- Apply Film-Ocean and any Client's Health, Safety, Environment and Quality Policies
- Promote a culture of continuous improvement, lead by example and exceed Film-Ocean's commitment to HSEQ initiatives.

### Essential requirements

- Experience with ROV deployed tooling and marine/subsea operations
- Background in mechanical engineering
